WEAKNESSES:

RECOMMENDATIONS:
Focus on enhancing Strengths by continued work and exposure, as well as transforming Weaknesses to Strengths by getting Private Instruction to polish subject deficiencies. Additional pointers in Comments below.

COMMENTS:
2019 Top Prospect MLB 42 overall score. Only a Sophomore still getting bigger, stronger and faster. Running throw of 91.9 mph, plus PBR 60 time of 7.1 sec (MLB 50), Bat Exit Velo of 89 mph, Pitching (High/Low/Avg/Sit) of 84/78/81/80 mph and OF Arm velo measured from 89-92 mph. We project Jaxon is at least an NCAA DI prospect if not an MLB draft pick.
